Saturday Morning Music Programme grades 4-6

Program Overview

Learning a musical instrument is advantageous for overall education. Your child will have the opportunity to learn a musical instrument and to play with other children in an ensemble. The programme is designed so that all students gain a sense of enjoyment and achievement.

Instrumental beginnings

Students will learn to perform on one instrument, either flute, clarinet, violin, cello or trumpet. A fun based instrumental programme which aims to teach students to play independently and tunefully. Students will learn how to perform from music notation as well as developing the ability to play through imitation and sight reading. The students will be required to practice their instrument at home to further enhance the development of their musical skills.

Let's explore music

In a similar way that children learn to speak before reading and writing, children will now learn to write music. They will learn the rhythms, pitches, meter, form and other musical elements. As well as notation this class will perform on percussion instruments and be involved in improvisation and composition.

Ensemble

Being a musician means playing individually, solo, and playing with others, ensemble. Students will come together in a small group to learn how to follow a conductor, to listen to others whilst playing, to be flexible, to learn teamwork and persistence.
